SUMMARY

I am a full-stack web developer with expertise in Python, PHP and Ruby on Rails. I am interested in algorithm-level efficiency and have experience working both with back-end and front-end technologies as well as frameworks. "Customer is king", so I concentrate all my technologies on implementation of the client' s ideas. I am accustomed to a distributed environment and I can work with remote clients using agile methodologies.

EXPERIENCE

Full-Stack Developer

https://holmcare.com - 2018 - 2019

- Tracked and fixed existing system issues using Trello as a reporting tool.
- Completely redesigned the visual user interface.
- Developed new features and fixed UI/UX bugs.

Holm Care
