SUMMARY

I'm a senior web developer with over 6 years of experience in building high-quality websites.
I am interested in algorithm-level efficiency and have experience working both with back-end and front-end technologies as well as frameworks. My skills and experiences range from building responsive mobile sites that work perfect cross-browser to building scalable websites for any industry.
It's important for me to build long-term relationships with my clients, so I'm primarily looking for long-term projects. I am accustomed to a distributed environment and I can work with remote clients using agile methodologies.

EXPERIENCE

Full-Stack Developer   Holm Care

https://holmcare.com - 2018 - 2019
